

 Version 1 - August 2026 COBOD MINI BATCH PLANT RECOMMENDED CUSTOMER LOCAL STOCK (FS500) Included in this document: 1. MIXER CHAMBER (BOTH ON EU AND UL VERSION) 2. WATER TANK (BOTH ON EU AND UL VERSION) 3. HIGH PRESSURE WASHER AND CHEMICAL PUMPS 3. CONTROL PANEL AND ELECTRICAL CABINET (EU VERSION ONLY)					
Disclaimer: These recommendations are based on operating the batch plant with standard concrete and following proper maintenance and cleaning procedures. The use of experimental cementitious materials, unusual aggregates, or abrasive chemical additives, as well as inadequate maintenance or cleaning practices, may significantly reduce the service life of the components. Extreme weather conditions may reduce the life cycle of the parts and increase maintenance checks. Ideally all customers have Consumables, Wearables and stock parts at all times to prevent down-time in operation. Please note Consumables and Wearables are NOT covered under warranty.					
Spare Parts Stock Definition: Parts the manufacturer advises keeping in stock so they're on hand when needed, minimizing downtime.					
Note: Cells highlighted in yellow indicate items classified as "Show Stoppers": components deemed critical to operation, without which the process cannot proceed.
