

COBOD CONCRETE PISTON PUMP CONSUMABLES (ELECTRIC VERSION)

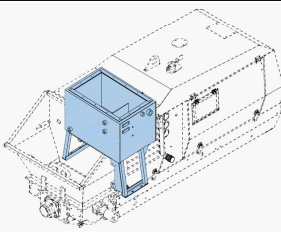

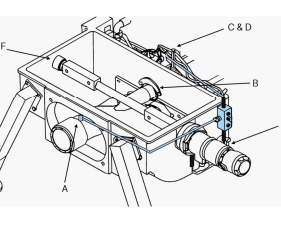

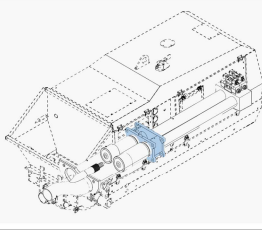

Version 1 - August 2026

Included in this document:

1. HYDRAULIC SYSTEM (BOTH ON EU AND UL VERSION)
2. LOWER HOPPER (BOTH ON EU AND UL VERSION)
3. WATER TANK (BOTH ON EU AND UL VERSION)

Disclaimer: These recommendations are based on operating the pump with standard concrete and following proper maintenance and cleaning procedures. The use of experimental cementitious materials, unusual aggregates, or abrasive chemical additives, as well as inadequate maintenance or cleaning practices, may significantly reduce the service life of the components. Extreme weather conditions may reduce the life cycle of the parts and increase maintenance checks. Ideally all customers have Consumables, Wearables and stock parts at all times to prevent down-time in operation. **Please note Consumables and Wearables are NOT covered under warranty.**

Consumables Definition: Items that are used up and depleted through normal operation and must be regularly replenished.

Number	Visual reference	Name/Specs	ERP No.	Location in equipment	Amount in equipment	Number of operational hours before replacement is recommended
1. HYDRAULIC SYSTEM (BOTH ON EU AND UL VERSION):						
1		Hydraulic oil - ELF OLNA DS 46 (Can vary depending on weather conditions)	N/A		20 Gallons	800 Hours
2. LOWER HOPPER (BOTH ON EU AND UL VERSION):						
2		Grease cartridge - Multipurpose lithium hydroxystearate, standard mechanical grease	ADIPP00000026		1/4 tube of grese	Daily
3. WATER TANK (BOTH ON EU AND UL VERSION):						
3		Water - Clean, ambient temperature, preferably from tap	N/A		2 Liter	Daily
